

Operations Memorandum

To: CVG Airlines and Tenants

From: Brian Cobb, VP - Customer Experience

Subject: Lift Station Replacement Project

Date: August 8, 2016

A KCAB contractor will begin the replacement of the lift station, a critical plumbing component for the Terminal building, beginning on Monday August 15th. The area for this project (image 1) will be barricaded off for the duration of the work (approximately 90 days) which will restrict access to the loading dock and the parking spaces adjacent to the building. The dumpsters located in this area will be unaffected and will be accessible throughout the project.

The emergency egress walkway (image 2) from the Terminal will remain open and unobstructed. For your safety please minimize the use of this ramp unless emergency evacuation is required. Please see the attached photos for the exact locations of the above discussed temporary changes.

Please remain aware of construction vehicles/equipment and personnel while in this area. Thank you for your cooperation and temporary accommodations as this project progresses.
