

Operations Memorandum

To: CVG Airlines and Airport Tenants

From: Brian Cobb, VP - Customer Experience

Subject: Pownet Wi-Fi Survey Team

Date: October 13, 2015

Over the next few weeks a contractor for KCAB named Pownet will be performing various outdoor surveys for an upcoming Wi-Fi project. They will mainly be around the outside of many KCAB owned buildings, but may also be seen around other airport facilities.

Below you will find a photo of the van they will be using and the antenna that will be attached. In some situations the antenna will be placed in a backpack and worn by a Pownet employee. The Pownet employees will be in uniform and clearly identifiable. Please contact the KCAB IT Department at 859-767-4565 if you have any questions or concerns.
