

Operations Memorandum

To: CVG Airlines and Tenants

From: Brian Cobb, VP - Customer Experience

Subject: AOA Ramp and Vehicle Service Road Closure

Date: August 29, 2016

Beginning **Wednesday, August 31st**, a KCAB contractor will begin a ramp milling and overlay project to improve the condition of the ramp surrounding former Terminals 1 and 2. This will result in portions of the Aircraft Operating Area (AOA) ramp and near-by vehicle service road (VSR) closure. Required Notice to Airmen (NOTAM) will be issued throughout the project. The area for this project (image 1) will be barricaded off for the duration of the work and is anticipated to take up to **30 days**, weather dependent.

The following restrictions will be in place

- Ramp 2 (Taxilane 2N on airfield plans) will be closed when work is occurring
- Ramp 1 area near Gate A4, and the Gate itself, will remain closed for the duration
- The vehicle service road will detour south to Concourse B, west to Concourse C then back on a northerly route as depicted below

Please remain aware of construction vehicles/equipment and personnel while in this area. Thank you for your cooperation and temporary accommodations as this project progresses.
