Subject: Escalator Maintenance at Concourse B

Date: August 9, 2015

CVG's contractor for escalator repairs has identified the need to replace gear assemblies on two units. Work is expected to begin September 14 after the 9am bank of flight departures. The units are identified in the map below. It is expected to take up to three (3) weeks per unit, starting with the primary "up" escalator, far right hand side. Upon completion, work will move to the single "up" escalator to the U.S. Customs / FIS area.

The work zones will be safety barricaded and additional signage will be positioned to help with wayfinding to the U.S. Customs / FIS area.
