Subject: Baggage Makeup Area Spot Assignments Update

Date: 7/1/2021

**EFFECTIVE JULY 2, 2021**

The baggage makeup area bag cart assignments have been changed. All airlines impacted have been notified. As of Friday, July 2, the below assignments will be utilized.

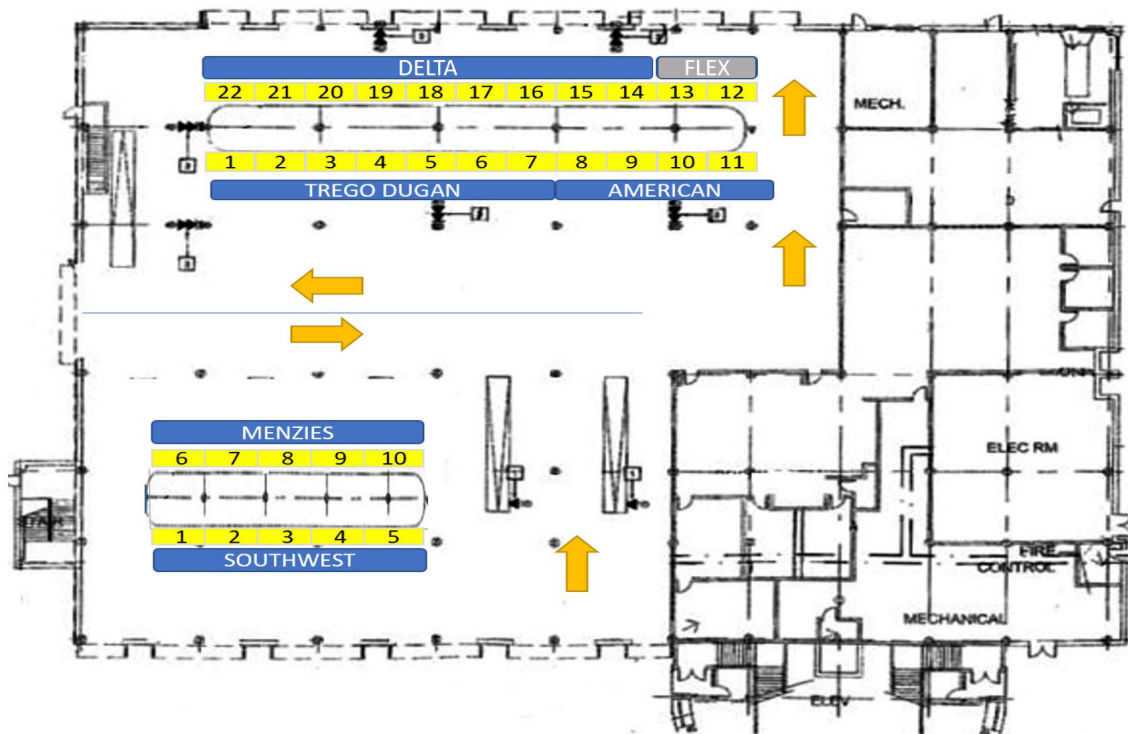

**NORTH CAROUSEL**

Trego-Dugan: **Spots 1-7**

American Airlines: **Spots 8-11**

Delta Airlines: **Spots 14-22**

**\*Spots 12-13 will be utilized as a flex location for all airlines.** Delta will have preferential use during the daily morning push (start of business – 0830). Outside of those hours and when not in use, **spots 12-13 must remain vacant to allow for other airlines to use when needed.** Bag tugs and carts are not permitted to be parked in these spots. This area is under 24/7 surveillance and this will be enforced.

The **south carousel** remains unchanged.

## **Safety in the Baggage Makeup Area**

As a reminder, **bag tugs must enter the baggage makeup area from the south and exit from the north. Airlines and ground handlers must always keep the drive lanes free of parked carts and equipment.** Airlines and ground handlers that violate this by parking equipment in the drive lanes will be notified and required to relocate the equipment immediately. This area is under constant surveillance and is patrolled by the Airport Police Department. If an employee discovers parked equipment blocking their path from another carrier, please notify the Airport Operations Center at 859-767-7777 and they will contact the airline to relocate the equipment.
