Subject: Terminal 2 Triturator Servicing and Alternate Site

Date: August 4, 2015

The Terminal 2 triturator will be closed for servicing beginning Thursday, August 6 for approximately two weeks. The alternative waste disposal site will be relocated to the east side of Terminal 1 as depicted below. This site is for sewage only and used accordingly. The cover must be removed prior to servicing and returned after each use. The area is barricaded for visibility and safety purposes. Personnel are reminded to use caution when entering/exiting the area and remove all service equipment and trash from the work zone to prevent FOD (foreign object debris).
