

Operations Memorandum

To: CVG Airlines and Tenants

From: Brian Cobb, VP - Customer Experience

Subject: Revised OneJet Operational Plan

Date: February 14, 2017

To enhance line-of-site between service vehicles and OneJet aircraft, the aircraft taxi pattern has changed. Effective immediately the aircraft will taxi out to the north, onto Taxilane 1. This improves line-of-site for service vehicles driving within the vicinity of Gate A4 during OneJet operations. See depiction below.

Ramp drivers exiting Concourse A bag makeup are reminded of the one-way direction flow to join the service road; **cutting across A4 is strictly prohibited and subject to Ramp Citation**. This operational plan has been developed to ensure passenger, personnel and aircraft/equipment safety.
