

Operations Memorandum

To: CVG Airlines and Tenants

From: Brian Cobb, VP - Customer Experience

Subject: OneJet Operational Plan

Date: October 17, 2016

OneJet will begin service from CVG starting Wednesday, October 19. OneJet utilizes a Hawker 400XP. Given the aircraft type, ground-level boarding operations will occur from the bus access point beneath Gate A4. The aircraft will taxi in/out of position using the non-standard T-box as illustrated below.

Airline and ground operators are reminded to coordinate use of A4 for irregular operations or charter activity with KCAB.

Please take notice of additional ramp personnel, equipment, and customers in this area when an operation is active. Tug drivers exiting Concourse A bag makeup are reminded of the one-way direction flow to join the service road; cutting across A4 is strictly prohibited. This operational plan has been developed to ensure passenger, personnel and aircraft/equipment safety. Thank you for your cooperation as we welcome OneJet to CVG.
