Subject: Baggage Induction Procedure Change

Date: 11/9/2022

Effective Immediately

Beginning immediately at the ticket counter, please note that signage has been updated above the belts for all four induction points. **All baggage should now be placed with wheels up and entering first, and the bag tag should now be trailing and enter last.** Where applicable, please place bags on yellow dots on the belt. This change is to increase baggage hygiene while traveling through the belt system.

Below is an image of the updated signage that has been placed in this area. The signage will have opposite directional arrows based on appropriate induction point.

For all issues with the baggage system, please be sure to call 859-767-7777 for assistance.

Should you have any questions, please contact Kevin Watts at kwatts@cvgairport.com

Thank you for your cooperation.
