

CVG Operations Memorandum

To: CVG Airlines and Tenants

From: Brian Cobb, VP - Customer Experience

Subject: Intermittent Taxi/Tow Restrictions for Remote Ramp

Date: February 27, 2017

Demolition activity associated with Concourse C will require intermittent taxi/tow restrictions from the Remote Ramp. When the restriction is in place, positions R20, R22, R24, and R26 will require pushback operations to leave these parking assignments. Taxi/Tow teams are required to establish and maintain contact with the Delta Ramp Tower during taxi/tow operations.

A NOTAM will be issued to activate the specific closure times and restrictions. The NOTAM will indicate closures are in effect for Ramp 2 North and South between Taxilane Echo and Golf and Taxilane Foxtrot between Ramps 2 and 3. Aircraft positioned on R20, R22, R24, and R26 will need to use pushback operations when the NOTAM is active. Times are generally between 8:30am and 12:00pm, but may be subject to change as conditions warrant.
