

Operations Memorandum

To: CVG Airlines and Tenants
Subject: New entry and exit route for Concourse A Baggage Makeup Room
Date: July 9th, 2020

EFFECTIVE IMMEDIATELY

CONCOURSE A BAGGAGE MAKEUP ROOM EXPANSION UNDERWAY

The Concourse A facility expansion project has begun to position for the construction to expand the baggage makeup room. Construction is expected to be completed in April 2021.

Due to the construction footprint, the tug route has been changed. Entry into the baggage makeup room will be from the southside of Concourse A. **The west entrance is closed during construction.** The exit will remain on the northside of the room but will follow the new markings through the gate A4 ramp space. Barricades have been placed to guide tugs along the new exit route. Please use extreme caution when entering and exiting the baggage makeup room. Note that there has been a "stop" bar painted on the exit of the tug route as it meets the vehicle service route (VSR) on the north side.
