Subject: Terminal Drive Closures & Parking Garage Exit Plaza Demolition

Date: May 17, 2018

Effective May 24, 2018

RETURN TO TERMINAL ROAD PERMENATELY CLOSED & TEMPORARY LANE CLOSURES

To support the ongoing construction for the Consolidated Rental Car Facility (CONRAC) current traffic flow patterns are changing on Terminal Drive. The return to Terminal roadway that is currently on the north side of the parking garage will be closed permanently beginning on May 24. In addition, for approximately 2 weeks lane closures will occur reducing Terminal Drive to 1 lane near the current parking garage exit. Highlighted on the map below is the effected sections of roadway along with arrows identifying the new path vehicles will use to return to the Terminal.

In short, vehicles will now need to take the exit ramp to Donaldson Road from Terminal Drive. Taking a left onto Donaldson Road vehicles will connect back to the Terminal by taking another left onto the ramp to Terminal Drive and back toward the pick-up/drop-off locations. Signage will be in place to help facilitate this traffic flow change.

Effective May 24, 2018

TERMINAL GARAGE EXIT PLAZA DEMOLITION

KCAB's contractor will begin demolition of the exit booths and associated infrastructure at the garage exit plaza until June 11. This demolition will reduce the number of exit lanes in half to 4 open lanes. During peak periods, you may experience delays when exiting the garage. The new exit plaza and roadway is under construction and opening in the coming weeks, which will provide a new exit path from the garage. Please use extreme caution and remain vigilant of construction equipment and personnel when traveling through this area.
