

Cincinnati/Northern Kentucky International Airport

Operations Memorandum

To: CVG Airport Airlines and TSA

From: Brian Cobb, Director - Customer Services

Subject: **Security Checkpoint Handling of Armed LEOs and FAMs During Construction**

Date: January 9, 2013

As outlined in Operations Memorandum 2013-01, the Security Checkpoint floor will be undergoing construction. This will impact the by-pass door at a minimum during the first two phases (phasing diagram included below). What follows below is the interim process as established by the TSA:

ARMED LEO and/or FAM PROCESSING DURING CONSTRUCTION

- Direct LEO/FAM to Ticket Document Check (TDC) @ lanes 1&2 (employee path)
- TSA Supervisor will be notified by TDC Agent
- LEO/FAM will be escorted by TSA to TSA Supervisor Station to complete the verification process
