

Operations Memorandum

To: ALL KCAB STAFF, CVG TENANTS, and AFFILIATES
Subject: Continued Use of Recommended Hygiene Practices
Date: June 11, 2020

To our CVG community of employees and volunteers;

As we begin to see neighboring industries in our community reopening and resuming operations and as our state begins to lift restrictions, we wish to provide an update on the increase in operations at CVG and to reaffirm the need for cautious and steadfast personal safety. We are several weeks into our summer travel season and have seen an optimistic number of passengers returning to travel. Based on our predictions and air carrier schedules, we look forward to steady growth as we welcome our travelers back. We expect to see this growth supported by the continued reduction in state restrictions.

It is imperative that we lead by example and maintain the highest levels of personal safety for not only ourselves but in consideration of the guests, passengers, and employees that frequent our airport. **CVG strongly encourages badgeholders, particularly those around passengers, to wear masks, exercise recommended social distancing, continue to utilize recommended hygiene practices, and to practice good judgement.** If you feel sick or if you have been sick within the last 24 hours, stay home.
